

Identity Theft 911®

Wherever you go, you're good to go!

We take you from panic to peace of mind with **Identity Travel Assistance** for business travelers.

These services are only available while your Chubb Business Travel Accident policy is in force.

Be prepared for the unexpected when you travel.

Ever thought about the frustration you would experience if you suddenly lost your license, passport or travel tickets while on a business trip? Instead of focusing on the business at hand, you would be dealing with law enforcement officials, government bureaucrats and credit reporting agencies. And with the growing threat of identity theft, the stakes just got higher. Your personal identification and your identity are priceless - especially when you travel. With **Identity Travel Assistance** from **Identity Theft 911** - wherever you go, you're good to go!

If you are the victim of theft or lose your personal or financial documents while traveling on business, a single toll-free call to an **Identity Theft 911** expert, 24 hours a day, seven days a week, will start the proactive steps needed to defend against the fraudulent use of your information.

You're never alone with us on your side.

During the first conversation, a highly experienced **Identity Theft 911** personal advocate will be assigned to you and act as an intermediary between police, governmental agencies and embassies. This fraud specialist will assist you in matters ranging from filing police reports to reporting stolen or lost passports - critical prerequisites for applying for and obtaining new documentation such as a driver's license, U.S. passport and credit or debit cards. They establish a communications link to help you during this tumultuous time.

Please detach your personal **Identity Travel Assistance** card below and carry it with you on your trip at all times. Keep a copy of the phone numbers in a safe place in case you lose this card.

But we don't stop there. The personal advocate also helps you clear up residual problems upon your return home. Throughout the entire process, you'll receive valuable proactive resources and ongoing education. The **Identity Theft 911** personal advocate even follows up after your identity has been restored to make sure there are no renewed fraudulent activities.
